When	September 14, 2017
Where	-> Messe München, Room C12 (above Hall C1)

The Food Safety Forum is dedicated to recent issues with food oil contaminants, present or formed during the processing of oils and fats.

The discovery of the formation and presence of 2 and 3-MCPD esters and Glycidyl esters in vegetable oils, in particularly in palm oil, has triggered a chain reaction in the vegetable oil production and food oil processing industry to tackle this new challenging problem before consumers are getting too concerned.

A whole range of measures from the oil crop to the final refined oil use, are already taken or under way to reduce and limit as much as possible the presence and formation of these minor components.

The aim of the Food Safety Forum is to address this new challenge and show what is already being done today and what is to be expected in near future. Experts from various domains, will explain their view on the matter, be it from official side, industrial producers and processors as well from technological and analytical point of view.

Target audience

The forum aims on all interested parties from official bodies, industrial food oil processors and producers, to technology and solution providers and those responsible for food safety in general.

Entire supporting program is in English.

Session 1, September 14, 2017

Time	Title	Speaker
13:30	Progress made by the European vegetable oil industry with respect to 2- and 3-MCPD esters & Glycidyl esters -> Download presentation	Dr. Andreas Menzel R&D Director Cargill Global Edible Oil Solutions - Europe, on behalf of FEDIOL
14:00	Position of the Malaysian Palm oil producing industry and the actions taken to limit and reduce the formation of 2/3 MCPD in the oil palm mills and palm oil refineries -> Download presentation	Roddy Ramli Senior Researcher MPOB
14:30	Implementation of the Malaysian Sustainable Palm Oil (MSPO) Certification Scheme -> Download presentation	Harnarinder Singh CEO MPOCC
15:00	Views and insights on how to deal practically with food safety and new consumer concerns and expectations -> Download presentation	Adina Creanga Product Safety Director Bunge
15:30	COFFEE BREAK	

Session 2, September 14, 2017

Time	Title	Speaker
15:45	Analytical solutions today	Jan Kuhlmann

	<p>available for measuring 2/3 MCPD and GE and other critical contaminants in food oils</p> <p>-> Download presentation</p>	<p>Team Leader</p> <p>SGS Group</p>
16:15	<p>Technological solutions to mitigate 2/3 MCPD in crude palm oil production and palm oil chemical re#ning</p> <p>-> Download presentation</p>	<p>Klaus-Peter Eickhoff</p> <p>Head Of Product Line Renewable Resources</p> <p>GEA Westfalia Separator Group GmbH</p>
16:45	<p>Current and future solutions to mitigate 2/3 MCPD & GE in oil re#ning and modi#cation while preserving the overall organoleptic and nutritional quality of the oil</p> <p>-> Download presentation</p>	<p>Dr. Marc Kellens</p> <p>Global Technical Director</p> <p>De Smet Ballestra Group</p>
17:15	<p>New adsorptive solutions to prevent or reduce the formation of 2/3 MCPD & GE from food oils</p> <p>-> Download presentation</p>	<p>Dr. Klaus Schurz</p> <p>Product Manager</p> <p>Clariant</p>

Speaker

**Dr. Adina Creanga,
Product Safety Director, Bunge
EMEA**

Dr. Adina Creanga is Product Safety Director in Bunge Europe, Middle East and Africa. Her role is to define and deploy a food and feed safety strategy in the company, to promote a "safety culture".

[More](#)

**Klaus-Peter Eickhoff,
Head of Product Line Renewable
Resources,
GEA Westfalia Separator Group
GmbH**

Klaus-Peter Eickhoff is the Head of the Product Line Renewable Resources of GEA in the Business Area Equipment, Product Group Separation. To the most important activities in this department belong customized centrifuges as well as complete process lines for the recovery and refining of oils and fats.

[More](#)

**Dr. ir. Marc Kellens,
Global Technical Director, De
Smet Ballestra Group**

Marc Kellens is the global technical director of the Oils, Fats and Oleochemical division of The De Smet Ballestra Group and member of the executive committee.

[More](#)

**Dr. Jan Kuhlmann,
Team Leader, SGS**

Jan Kuhlmann is the leader of the chromatographic department at SGS multilab Hamburg, Germany.

[More](#)

**Andreas Menzel,
R&D Director, Cargill Global
Edible Oil Solutions Europe**

Dr. Andreas Menzel is the R&D Director of Cargill Global Edible Oil Solutions Europe, based in the Netherlands.

[More](#)

**Roddy Ramli,
Researcher, Malaysian Palm Oil
Board (MPOB)**

Muhamad Roddy Ramli holds a Bachelor and Master Degree in Chemical Engineering from Universiti Teknologi Malaysia and Universiti Putra Malaysia, respectively.

[More](#)

**Klaus Schurz,
Product Manager Bleaching
Earths, Clariant**

Klaus Schurz is product manager for bleaching earths in the region EMEA of the “Business Group Functional Minerals, Segment Purification” of Clariant.

[More](#)

**Harnarinder Singh,
CEO, Malaysian Palm Oil
Certification Council (MPOCC)**

Harnarinder Singh is the CEO of the Malaysian Palm Oil Certification Council (MPOCC), a recently established independent organization responsible for the development and implementation of the Malaysian Sustainable Palm Oil (MSPO) Certification Scheme in Peninsular Malaysia, Sabah and Sarawak.
