

## Supporting program

---

Accompanying the exhibition, the oils+fats presents a comprehensive supporting program. Expertise of professionals for professionals. **Entire supporting program is in English.**

---

### Food Safety Forum

Technological solutions to analyse and mitigate the formation of 3MCPD and GE in food oils.

→ Food Safety Forum

### Practical Short Course

Novel Technologies in Oilseed Processing, Edible Oil Refining and Oil Modification.

→ Smart short courses

### DGF-Education Course

Crushing of oil seeds – Prepared for future challenges

→ DGF-Education Course

### Bavarian evening

Traditionally oils+fats welcomes visitors and exhibitors of the exhibition to a social evening with a cool drink and Bavarian "delicacies".

→ Bavarian evening

### Oil bar

Tasting, networking and talking shop

→ Oil bar

## Research meets YOU

Several Fraunhofer institutes as well as other research institutions present latest innovations and research

→ Research meets YOU
